

I put my name on a "no call" list because I don't want MY privacy invaded by phone solicitors. I PAY the phone bill and I should be able to control who is and is not allowed to call me. I don't give my number out to strangers on the street, and I don't want un-wanted phone calls from businesses. IF they want my business, then they can mail me something via the US Postal service.

Thank you,

Laura Taylor
